Budget Estimates of the Corporation for 1951-52

How

The Commissioner, Corporation of B'lore

No B 1/50 dated 2/6 - 4 - 51

Forwards Resolution dated 26 3 51 to
the Corporation in the matter

The Budget estimates for 1951-52
of the B'lore Corporation has been
considered by the Standing Committee
and after it is presented ^{has} to go before
the Corporation for final adoption. As
it takes a little time before the Budget
is passed, the Corporation has resolved
on 26 3 51 authorizing the Council to
incure inevitable expenditure in the
meantime. This Resolution is sent
for information and no action appears
to be called for on the present Report.

2) The Budget estimates for 51-52
will be revised

BRIEF ABSTRACT OF LETTER

Forwarded the Budget estimates of the Corporation for 1951-52

NOTES AND ORDERS

1 S G Secretary's orders

To be Referred to G. L. F. A
(2d) 1955
20.6.51

U.O. 79

Dated 27 6 51

Forwarded an officially to the Controller S.D.O. Accounts Department for favour of Bangalore and Revenue early

Bangalore
27 6 51

30
For Secretary to G. L. F. A
27/6 Local Self Govt Dept

W O W 1873(CSA) 1931 7 57

2) -- memorandum explaining the variations between the sanctioned budget estimates for the year 50-51 and the revised estimates for 50-51 and between the revised estimates for 50-51 and those proposed for the year 51-52 has not been appended to the Budget estimates, nor is a column opened in the body of the estimates themselves showing the reasons for the variations as is provided in form L.A.M.1. In the absence of any statement explaining the variations attached to the Budget, the reasons for the variations had to be gathered from the note prepared by the Commissioner explaining the noticeable variations which he had placed before the Standing Committee while presenting the draft Budget Estimates. Even in this note all the items in which variations are noticed have not been dealt with. The modifications effected by the Standing Committee and Corporation had to be got at by referring to the proceedings of the respective bodies. A full explanatory memorandum may be asked to be appended to the Budget by the Corporation in future.

4)
27) The figures in the Budget have been got - scrutinised by the Auditor of the Corporation. He has given a note regarding the possibility of the realisation of the revenue taken on the Receipt side and the adequacy or otherwise of the Provisions made on the Expenditure side, with reference to the actuals of the last three years and other available data. The note of the Auditor is enclosed for perusal.

2

5) It may be seen from the note that the Corporation has overestimated the receipts under both the regular items of revenue and Government grants. Although a closing balance of Rs.1,59,000/- has been shown under the Revenue Account and thus satisfy the requirements of Section 164 of the Corporation Act, the non-realisation of the Revenue estimated on the - Revenue side of the Budget, of which there is every possibility, results in a heavy deficit in the Revenue Budget, as explained below.

6) A sum of Rs.16,87,486/- has been taken as revenue under the Assessed Taxes for the City area with the expectation that there will be a collection of 90% of the total demand from a history of the percentage of collections in the City Area for the past several years ^{it} ~~is~~ is seen that at no time have the collections gone beyond 70%. It would be too sanguine to expect 90% collection during the year. If the collection staff make strenuous effort, the collections may be expected to rise about 10% more than the record reached in previous years. Assuming that there will be 80% collection, the revenue under assessed taxes will be Rs.14,99,325/- This will result in a decrease under this head of Rs.1,88,000 (approximate). In case it is felt that a reduction by Government ^{in the demand} under this head, though based on a realistic outlook, is likely to damp the enthusiasm of the collection staff and cause it to put forth less effort than it would do if the proposed figures were retained, action may be taken accordingly.

7) There is likely to be a decrease of Rs.2,53,000/- in the budget estimates under Octroi Receipts, Entertainment Tax, Motor vehicle tax and Sale of manure based on the actuals of past years as no special reasons have been given to anticipate increased receipts.

8) A sum of Rs.78,700/- has been taken under License

License fees for dangerous and offensive trades, as arrear fees. This appears to be contingent on a decision favourable to the Corporation being pronounced on the appeal which has been filed for the recovery of certain arrear fees from some textile mills. It is unlikely that the amount will be realised during the current year.

7) A sum of Rs.53,000/- taken in excess as compared with past actuals under 2 Preventive Medicines (c) License Fees, Dangerous and Offensive trades and (3) Hotels and Restaurants and (d) Building License Fee is not likely to be realised as the fulfilment of the formalities of framing the bye-laws and getting the sanction of Government for the increased or new rates and giving the interval prescribed under the Act will occupy a long period and the expected revenue may not be realised during the year.

8) The Government grants, expected under II. Education (c) Construction of High Schools and (i) Water supply (ix) Subvention due by Government, are not likely to be realised for the reasons given by the Auditor in his note, ^{and in the case, there will} resulting ⁱⁿ a decrease of revenue of Rs.80,000/-. In the case of other items of revenue which have been estimated at more than the amounts which past actuals warrant, unless necessary action is taken in time to work at the target, the expected amounts are not likely to be realised.

9) Taking into account a sum of Rs.85,000/- as under-estimated revenue under Excess water Charges and adding the same to the Receipts, there is, ^{on whole,} on ~~estimate~~ likely to be a short realisation of Rs.5,67,700/- on the Revenue side, ~~the~~ the realisable Revenue working out to Rs 69,66,100/-.

10) On the expenditure side, Appendix 'C' relating to Establishment has been prepared according to the Schedule of Establishment approved by the Corporation. The Schedule has been submitted to Government for sanction and it is under

their consideration. The Establishment Appendix should have been prepared as per the sanctioned scale as on 1-4-1951. The Schedule and the Proposition and Allocation Statements which have been referred to me for remarks are being got scrutinised and the Corporation may be asked to adopt only the Schedule as approved by Government.

13)
11) A statement showing the financial condition of the Corporation and the results of financial ~~re~~ review as per form 1 A.1 of the M.A.M. has not been appended to the Budget. The total amount of the Establishment charges as provided in the Budget Estimates for 1951-52 is Rs.26,45,640/-, including Dearness and High Price - allowance. The percentage of expenditure on establishment to the normal receipts works out to Rs.35.1% and is very high. The percentage of establishment charges under Public Health works out to 19.8% of the normal receipts. The Corporation has got power under the Act to create appointments the maximum pay of which does not exceed Rs.100/- and to sanction allowance to the staff. If the Corporation does not take into account the high percentage of establishment charges that ~~there is~~ ^{are} now being incurred, it is feared that the establishment - charges may ~~proportionally~~ ^{presently} rise to abnormal proportions. While ordering any increase in the establishment the Corporation will have to get the full financial implications of the new proposal worked out and accordingly sanction only after considering the extra cost involved. The present tendency, very often, is to sanction additional expenditure piece-meal in a haphazard manner. The Account Department of the Corporation has to be placed ~~on~~ ⁱⁿ a sounder footing in order to help the Corporation in this behalf and this, provided for in the proposals for re-organisation which I have sent up to Government.

for consideration and which I have also forwarded to the Corporation for necessary action. Incidentally, this involves an additional expenditure of roughly Rs. 16,750/- and though this need not be provided for in the budget pending sanction to the proposals, it will have to be taken into account, at least in part, in dealing with the financial position of the Corporation. Mention may also be made in this connection of the inadequacy of the budget provision under a- General Account-
1 Management & Audit Charges. The annual bill of ^{the} entire audit staff on the basis of the present strength is about Rs. 18,750/- and the estimated audit charges for a year will therefore come to Rs. 18,750/- and this figure may accordingly ^{be} provided for.

(14)
12) A sum of Rs. 49,500/- which is due to the Police Department being 1/3 cost of the recurring and capital expenditure for the maintenance of the Fire Service in the Civil Station has not been provided for in the Budget. If this is taken into account the figure under normal expenditure will increase to Rs. ~~77,12,950/-~~ 77,12,950/- taking the realisable revenue as given in para 8 supra into account ~~7,46,850/-~~ 7,46,850/- there will be a deficit of Rs. ~~7,46,850/-~~ 7,46,850/- and no closing balance can be provided as required under the Act.

13. ⁽⁵⁾ The D.C.B. statement appended to the Budget deals only with the Assessed Taxes. The other items of Revenue of a fixed nature will also have to be included in the D.C.B. statement in future. It is seen from the Budget Estimates of the Mauras Corporation that almost all items of Revenue have been included in the D.C.B. Statement. Even Form No. 1.D. of the M.A.M. contemplates such inclusion.

14. A lumpsum amount of 7,00,000/- has been taken under one head ^L Deposits on both the Receipts and Disbursement sides of the Budget Estimates without any detail-

as to how that figure has been arrived at. The same observation applies to the figures pertaining to advances also. An abstract of the Deposits and Advances Accounts classified under the important Heads such as Deposit from Contractors, Control, Market Deposits showing the estimated credits, debits, and closing balance may be asked to be enclosed to the Budget Estimates in future.

17) 15. A statement of Assets and Liabilities of the Corporation has not been enclosed to the Budget as is done in the Madras Corporation and as is given in the Budget Memorandum attached to the State Budget. Such a statement will give a ready idea of the financial position of the Corporation. It is seen from the monthly accounts of March 1951 that the balance under Deposits is Rs.20,36,514-14-8. A sum of Rs.1,63,191 is outstanding under Education Cess Fund which has to be paid to Government. As against a liability of about Rs.22 lakhs, the cash at Bank and investments amount only to Rs.8,99,611-8-4 and Rs.4,00,000/- respectively. There is a balance of Rs.8,95,250/- under advances. This is mostly the advance which has not been adjusted and much of it is not recoverable. The position therefore is that far from there being available a cash balance of 1 lakh under the Revenue ^{Account} as required under the Act, the balance of cash available does not even suffice to re-pay the Deposits and other fund amounts. Hence there is reason to suppose that the Corporation is utilising the Deposit amounts for meeting its normal expenditure.

18) 16. It is seen that the estimated figures under the following detailed heads of account have not been given and the columns have been left blank. But the estimated Receipts and Expenditure have been clubbed

clubbed under the respective minor heads and one consolidated figure has been given.

1 I. Management - 1 General taxation

(1) Octroi Receipts (vide Page 6 of the Budget)

2. II. Education 1 Public Instruction

(a) High Schools - Equipment Charges
(vide Page 19 of the Budget).

(19)
17. The idea with which such detailed heads of account have been prescribed is to enable the administration to know the amount of Revenue or expenditure, realised or incurred under that particular head of account and to take action either to increase the revenue or to reduce the expenditure. The clubbing of figures defeats this purpose.

(20)
18. Provisions made for the following extraordinary charges require the specific sanction of Government for inclusion in the Budget:-

I. Management 1- General

Sumptuary Allowance to Mayor ..	Rs 3,000/-
Bangalore Corporation Gazette ..	2,000/-

II Education 2- Grants-in-aid

additional items of grants-in-aid
to certain Institutions

Page 53	.	600/-
Page 45, items 2,4,46	.	4,300/-

E Miscellaneous

1 Erection of Statue	.	30,000/-
----------------------	---	----------

(21)
19. The payment of Rs.50,000/- towards the second instalment on account of the purchase of the Kumarapark buildings is stated to have been shown under Advances however, details have not been given. As this is a special expenditure it should have been shown under the head "Special Expenditure" against the prescribed head already existing.

22) As already stated, there is likely to be a deficit of Rs.7,46,850/- ~~xxxxx~~ in the Budget Estimates. It is needless to emphasise that the Corporation should effect a severe cut ~~in~~ ⁱⁿ the optional - items of expenditure. Either the Corporation has to curtail the expenditure to the realisable revenue or find out ways and means of augmenting the revenues in order to balance the Budget. It is noticed that the Corporation has added one Girls' High School and has proposed the opening of 3 Laternity Homes at a cost of Rs.50,000/-, and ~~xx~~ additional Milk Centres at a cost of Rs 20,000/-, involving recurring expenditure without, at the same time providing for a - permanent and readily realisable increase of revenue.

23) 1) The form in which the budget is to be prepared is stated to have been decided by the Standing Committee and to be awaiting the Corporations approval. The form now used may therefore be adopted for the current year.

24) 22. Section 167 (a) of the Corporation Act lays down that the Budget Estimates of the Corporation should be passed within 3 weeks before the beginning of the year to which it relates and forthwith submit a copy ^{being} ~~present~~ to the Government. Delays in the 'preparation of the budget and its submission to Government may be required to be avoided in future

 311)
 CONTROLLER,
 THE ACCOUNTS DEPARTMENT, BANGALORE
 31 7 77

Seq to Int, LSS. depart)

1997/mh

Budget estimates of the Blore Corporation
for the year 1951-52

25) The Remarks of the Controller State Accounts Department are for perusal

26) The anticipated Receipts on certain items are stated to be overwatched as compared with the actuals for the previous years according to the modifications suggested there is likely to be a net ~~shortage~~ of Realisation of Rs 5,64,700/- on the Revenue Side

27) On the expenditure side provisions on certain items are either completely cancelled or inadequately made which again accounts for an increase in the total expenditure to Rs 79,12,950/- as against Rs 78,56,700/- provided for in the Budget (+56,250/-)

28) With the above modifications there will be a deficit of Rs 7,46,850/- whereas Sec 164(2) (b) of the Corporation Act prescribes a statutory minimum closing balance of Rs 1 lakh

29) Under Sec 167(2) of the Corporation Act, the Govt may modify the Budget so as to secure the due fulfilment of the several duties imposed on the Corporation. This by implication may only mean the making of additional provisions for items not provided for by the Corporation on the expenditure side. The modifications

1997/mil
Budget estimates of the Blore Corps for 1951

proposed by the Controller for Reducing the anticipations of Revenue and other such items are not obviously covered by this provision

A 30) The above Section has however since been amended taking power to Govt to modify the Budget as it-
thence for within two months from the date of its receipt. But the Budget for this year is framed and approved by the Corporation prior to the amendment and it is therefore a point for consideration whether the amended provision can now be invoked to make the suggested amendments in the Budget

31) The framing of the Budget anticipating Realisations which are not warranted by the actuals for the previous years not only fails to reflect the correct financial position but it eventually does positive harm to the Corporation, leading adversely to the utilisation of the deposit accounts for normal expenditure as feared by the Controller.

32) The percentage of expenditure on establishment to the normal receipts is worked out to be 35.1 % which is really a very high percentage and includes perhaps the cost of

1997/98

Budget estimates of the Blore Corpⁿ for 1951-52,

Earnings allowance also - The B A
Should not be reckoned for calculating
the percentage of cost as it cannot be
characterised as a normal expenditure
to continue for all time. The fact
a high percentage may obviously be
due to a large number of sweepers
and scavengers ~~employed in the~~
Corporation in whose cases B A
exceeds pay. It would have been
more helpful if the Corporation Auditor
had also furnished the percentage of
cost on salary proper exclusive of
B A. The Controller may even now
be requested to work out these
figures separately for each of
the cost is higher than the accepted
proportion a suggestion may be
made to the Corporation for effecting
retrenchment in the establishment
charges.

33) The other observations of the
Controller are merely procedural and
will be communicated to the Corporation
for guidance after along
with the orders to be passed on the
several points raised, above as the order

Dec 18/51 34) Orders will have to be communicated
before 20th inst. The opinion of the
Law Secy at 'A' is pending so, at an early
date is necessary

SIR,

I write to inform you that the Standing Committee (Taxation and Finance) has concluded discussion of the Budget for 1951-52. The Budget was also considered by a joint meeting of all the Standing Committees on 30th March 1951. As the Budget copies are now under print and are likely to be forwarded to the Councillors only within the course of a week, the ordinary meeting of the Corporation for discussion of the Budget can be held only by the end of this month. The Corporation, therefore, at their meeting held on 26th March 1951 resolved that the Commissioner be authorised to incur inevitable expenditure until the Budget for 1951-52 is sanctioned vide copy of resolution enclosed. The Auditor has accordingly been requested to pass the bills presented to him.

A copy of the Budget as finally adopted by the Corporation will be sent to the Government in due course as required under section 167 of the Act.

FORWARDED WITH COMPLIMENTS

Yours faithfully,

R. Manikraman

3/4/51

MINUTE GENERAL MEETING OF THE
MAYOR, BANGALORE, HELD ON THE 26TH MARCH 1951.

1. Commissioner's note that he may be authorised to incur inevitable expenditure until the Budget for 1951-52 is sanctioned.

The Mayor pointed out that as the Corporation Budget for 1951-52, had not been sanctioned yet, they should authorise the Commissioner to incur inevitable expenditure from 1st April 1951 onwards until the Budget Estimate was sanctioned. He suggested that the Commissioner's note might be approved.

The House approved the proposal.

Resolved that the Commissioner, Corporation of Bangalore, be authorised to incur inevitable expenditure until the Budget for 1951-52 is sanctioned

26202/10-9-51
To: *LC 4 15-51-2*

The Commissioner,
Corporation of the City of Bangalore
(thru' the Mayor)

Sir,

Subject Budget Estimate of the Corpo-
ration of Bangalore for the year
1951-52
=====

With reference to your letter No B1 01 dated 19th June 1951 on the above subject. I am directed to observe as follows with reference to the possibility of the realisation of the revenue taken on the receipts side and the adequacy or otherwise of the provision made on the expenditure side as compared with the actuals of the previous years

1) A sum of Rs 16.87.486/- is anticipated under assessed taxes in the City area expecting a collection of 90% of the total demand. At no time in the past several years has the collection gone beyond 70% and in spite of the provision in the Corporation Act for more stringent measures being taken to collect taxes, the expectations are considered too sanguine as with all this the increase may not be more than 10% over the record reached in previous years

2) A decrease of Rs 2,53,000/- under Octroi receipts, Entertainments Tax, Motor Vehicle Tax and sale of manure over the Budget provision has to be expected, based on the past actuals, in the absence of special reasons being given to anticipate increased receipts

3 The anticipated receipts of Rs 78,700/- as arrears under license fees for dangerous and offensive trades is contingent upon a decision favourable to the Corporation in the appeal filed for the recovery of arrears from certain textile

Textile Mills and even so, the amount is not likely to be realised in full during the current year

4 The excess provision of Rs 53,000/- over the past actuals under "2-Preventive Medicines (C) license fee, Dangerous/dangerous and offensive trades and (3) Hotels and restaurants and (d) building license fee is hardly to be realised during this year as the final emergence of the new bye-laws after due observance of the prescribed formalities would occupy a considerable time

5 The grant of Rs one lakh expected from Government for the construction of high Schools is premature as no proposals in this behalf have yet been received. Even granting ^{that} sanction is obtained to the estimate during the year the Government Grant will not be more than 50% of the cost and the grant to be expected can only be Rs 50,000. So also is the water supply subvention due from the Government

6 On the Expenditure side at least a part of the additional expenditure of Rs 16,750/- involved in the proposals for the revision of the Accounts Department of the Corporation has to be taken into account. Provision of Rs 49,500/- towards the contribution payable to the Police Department in respect of the cost of the maintenance of the Fire Brigade service has not been made, though such a contribution was being paid by the erstwhile Municipal Commission, Civil Station. This is absolutely necessary and has to be provided for

7 A statement showing the financial condition of the Corporation and the results of financial review as per form I A 1 of the Municipal Accounts Manual has not been appended to the budget. The total amount of the establishment charges as provided in the budget is Rs 26,45,640/- including Dearness allowance and High Price allowance. The percentage of expenditure on establishment to the normal receipts works out to 35.1% and is very high. The percentage of establishment charges under public health works out to 19.8 percent of the normal receipts

8 It is thus seen that an unduly optimistic view is taken regarding the anticipated receipts and their non-realisation in full will result in a heavy deficit in the revenue budget in the neighbourhood of Rs 7,46,850/- as against a closing balance of Rs 1,59,880/- shown under the revenue account. Provision has not also been made on the expenditure side for certain inevitable items which require to be provided for now. The financial position of the Corporation cannot be considered satisfactory having regard to all these factors and the Corporation and the other Authorities charged with the carrying out of the provisions of the Act may bear these observations in mind while operating the provisions made in the budget. In the interest of the Corporation which is still in its infancy,

9 A statement of assets and liabilities of the Corporation has not been enclosed to the budget as is done in the Madras Corporation and as is appended to the State Budget.

10 The monthly accounts of March 1951 are stated by the Controller, State Accounts Department to disclose under deposits a balance of Rs 20,36,514-14-8. A sum of Rs 1,63,191-2-0 is said to be outstanding under Education Less Fund and this which has to be paid to Government. As against this liability of about Rs 22,00,000/- the cash at Bank and investments amount to Rs 8,93,611-8-4 and Rs 4,00,000/- respectively. There is also a balance of Rs 8,95,250/- under advances outstanding. This is mostly advance which has not

not been adjusted and much of it is not recoverable. The position therefore is that ~~f~~ there being a cash balance of Rs 1,00,000/- under the Revenue Account, as ^{under the Act} required, the balance cash available does not suffice for repayment of deposits and other fund amounts. Hence, there is reason to suppose that the Corporation is utilising the deposit amounts for its normal expenditure.

11 Coming to the form and procedural aspect, a memorandum explaining the variations between the sanctioned budget estimates of the previous year and also between the revised estimates of the previous year and the provision for the current year should invariably be appended to the budget estimates to facilitate scrutiny. The enclosing of a statement showing the financial condition of the Corporation and the results of financial review as per form 1 A A of the Municipal Account Manual is also necessary.

12 Section 167 of (a) of the Corporation Act enjoins that the Budget estimates of the Corporation should be passed within three weeks before the beginning of the year to which it relates and a copy thereof submitted forthwith to the Government. Delays in the preparation of the budget and its submission to Government may be avoided in future.

Yours faithfully,

28/24/8

Secretary to Government,
L S G Department

Memo No L 6203-4 10/29-51
Copy of the above is forwarded to

(1) The Controller, State Accounts Department,
(2) " Auditor, Corporation of the City of Bangalore
for information

REVIEW OF THE BUDGET ESTIMATES FOR
1951-52.

A. General Account- 1 General Taxation

(1) Octroi Receipts.

Rs. 8-49.18,68,669/- 9-50. 9,18,111/- (9 months). 0-51.15,42,076/- -----	A sum of Rs.16,80,000/- has been provided under this head as net Octroi Receipts. Taking the average of the actuals of the last three years the revenue that can be anticipated works out to Rs.15,74,130/- or roughly it may be taken at Rs 16,00,000/- providing for some increased collections. There are no special reasons to expect for increased revenue to the extent of a sum of Rs.80,000/- no concrete steps have been taken to levy octroi duty on articles. Therefore the revenue may be decreased by Rs.80,000/-.
---	--

(4) Entertainment Tax.

Rs. 8-49.3,92,222. 9-50.3,02,676. 0-51.3,62,132- 12-4.	The average revenue received from Government under this item for the past three years is Rs.3,84,375/-. It may be roughly taken at Rs.4,00,000/-. Including a sum of Rs.50,000/- which is said to be in arrears as per the order of the Commissioner, the estimate cannot be fixed at more than Rs.4,50,000/-. The Corporation is urging for the transfer of the administration of the Entertainment Tax Act to the control of the Local Bodies in order to prevent the leakages that are now taking place due to the lack of sufficient control and supervision by the Deputy Commissioner and to avoid the misclassifications taking place the Treasury. But unless the Act is amended by the necessary legislation, more revenue cannot be expected.
---	--

General Account II-Education-3.(c) Construction of High Schools.

Detailed estimates for the construction of the High Schools have not been framed or sanctioned nor have

Government been approached for the sanction of the necessary grant. Granting that sanction to the estimate is obtained and the work is taken up and executed, Government will give a grant of only 50% of the expenditure incurred. Hence only -Rs.50,000/- may be expected and the grant of 1,00,000 cannot be realised.

Rs.50,000/-
Decrease.

A. General Account III Communications

I Roads (6) Government Grant..

(a) Motor Vehicle Tax.

The average of the actuals for the last 3 years under this head comes to Rs.2,49,000/-. Granting that some arrears of the past three years would be realised during 1951-52 the estimated receipts may not go beyond 3,00,000/-. It is noticed from the discussion at the Corporation Meeting on the Budget Estimates that the Government Grant fixed for the City Area as far back as 1936 requires revision as the number of vehicles has increased very much since that date. It is unlikely that the revision will be effected this year and that it will be ~~effect~~ given effect to from 1951-52 itself. Therefore there will be a decrease of Rs.40,000/- under this head.

48-49.2,27,312
49-50.1,59,934
50-51.1,97,463

Decrease.
Rs.40,000/-.

(e) Maintenance of Military Roads

The normal grant payable to the former Civil Station by the Military Department was Rs.10,490/-. It was increased to Rs.35,000/- with effect 1944-45 for the duration of the War due to the heavy movement of Military Vehicles. It is noticed from the correspondence that has passed between the Commissioner and the Military Department, that the Military Department have proposed to revise the grant on the ground that the war terminated long ago

ago and that some of the Roads classed as Military Roads have to be removed from the list. The amount referred to above is not likely to be realised to the full extent. As it cannot be made out how much of the amount would be cut down by the Military Department, no amount has been specifically proposed for decrease. But it is likely that only the pre-war normal grant will be realised.

General Account -IV Public Health.

2 (b) (1) Sale of Manure, Night Soil
Street Refuse etc.,

Rs.
-49.34,981/-
-50.25,135/-
-51.40,044/-

Decrease
Rs.19,000/-

The average revenue realised under this head for the last three years is Rs.36,422/-. No special reasons have been given for an expected increase of the revenue to Rs.69,000/-. Even if some increase were to occur it may not go beyond Rs.50,000/-. Hence there is likely to be a decrease of Rs.19,000/- under this item.

- 2 (c) (1) License Fees - Dangerous and Offensive Trades.

Decrease.
Rs.78,700/-.

A sum of Rs.78,700/- has been taken as arrear license fees,. On enquiry it is ascertained that it represented the License fee due by some Textile Mills in the City for the previous years in connection with the ~~the~~ installation of Motors. The Mills have preferred an appeal against the levy of the amount by the Corporation. The District Judge, Bangalore, has given a decision in favour of the Mills. The Corporation have filed an appeal to the High Court. The possibility of realisation during the current year of the amount even in the event of a verdict favourable to the Corporation are meagre and it appears that this item may be deleted.

- The average collections under Dangerous and Offensive trades work out to Rs.20,400/- Assuming that there will be

some improvement in the collections during the year the amount may be put down at Rs.23,000/-. Thus there may be a decrease of Rs.10,000/- under this head.

48-49.11,110
49-50.22,008
50-51.22,097
~~Decrease~~ Rs.10,000/-

2 (C) Hotels and Restaurants.

The average revenue based on the actuals of the last 3 years works out to Rs.25,786/-. Assuming that there will be an increase in the Revenue by about Rs.5,000/- the collections may not rise to more than Rs.30,000/-. It is seen from the Resolution of the Standing Committee that the Commissioner has been requested to examine the question of increasing the License fees on Hotels and Restaurants and put up proposals for fixing the maximum and minimum rates. If the rates have to be enhanced necessary bye-laws have to be framed and published in the Mysore Gazette, sanction of Government has to be obtained and then the bye-laws have to be published again in the Gazette and effect to the bye-laws can be given only after the lapse of the prescribed time. It is doubtful whether all these formalities could be gone through and the new rates levied and collected during the year 1951-52. Therefore there is likely to be a fall of Rs.33,000/- in this behalf.

48-49.26,472/-
49-50.23045/-
50-51.21,395/-
~~Decrease~~ Rs.33,000/-

General Account V. Remunerative Enterprises.

1. Markets (b) Rents from Shops and Stalls.

The revenue that may be expected under this item based on the previous actuals is Rs.1,78,790/-. A sum of Rs.2,25,000/- has been taken in the Budget. The Standing Committee has increased the amount from Rs.2,00,000/- which was given figure by the Commissioner in his draft Budget to Rs.2,25,000/-. This increase has been made, as can be seen from the Resolution of the

48-49.1,73,683/-
49-50.1,18,457/-
50-51.1,99,530/-

49,11,670/-

the Standing Committee asking the Commissioner to take up the question of increasing the rents of stalls in the Market premises immediately, on the expectation of getting enhanced rents. Unless immediate action is taken in this regard the enhanced revenue is not likely to be realised.

(5) Land Development.

(a) Rent of Lahds and Buildings other than Markets.

A sum of Rs.20,000/- more than the Actuals of 1950-51 has been taken as the receipt under this head. This is on the ground that the rent of the Municipal Buildings let out to the public should be increased. Unless timely action is taken to increase the rent, there is no possibility of realising the enhanced revenue during the year 1951-52.

(b) Rent from Settlements Account

3-49.58,648/-
3-50.49,541/-
0-51.70,293/-

The revenue that may be expected under this item is about Rs.64,902/- based on the actuals of the past years. It is in pursuance of the Resolution of the Standing Committee that the rent of the Corporation houses in the Civil Station has been proposed to be revised to 3% per annum of the capital cost. Information regarding capital cost is still being gathered. Unless immediate action is taken to raise the rent, the enhanced amount is not likely to be realised during the year in question.

(d) Building License Fees

5,658/-
4,401/-
50.51. 5,493/-

The average revenue works out to Rs.5,658/- and now an increased sum of Rs.15,000/- is adopted in the budget. It is seen from the proceedings of the Standing Committee that this enhancement has been effected in expectation of an additional revenue of

the City area by levying a new fee for the construction of buildings as in the Civil Station Area. As the time required to change the bye-laws is considerable, it may not be possible to levy and realise this additional revenue during the current year. Therefore it may be decreased by Rs.10,000/-.

Decrease.
Rs.10,000/-.

(c) Water Supply and Drainage.

I. Water Supply (iii) Collection of Excess Water Charges.

The average annual income under this head comes to Rs.4,16,000/-. But the estimate has been put at a ~~low~~

low figure taking into account the proposal made to Government to raise the free allowance from 3,000 to 4,000 gallons. As Government have not agreed to the

48-49.4,54,149/-
49-50.2,12,450/-
50-51.4,77,201/-

11,43,800

proposal greater revenue may be expected under this head based on the actuals. Assuming that there may be rise in the revenue the estimate may be increased to Rs.4,25,000/-.

Increase
Rs.85,000/-.

(ix) Subvention due by Government.

As Government have not sanctioned the proposal of the Corporation to raise the free allowance of water the question of the payment of the subvention from Government does not arise. Therefore this item may be removed.

Decrease.
Rs.30,000/-

Assessed Taxes.

It is noticed from the Statement showing the Demand, Collection, Remission and Balance of the Assessed Taxes given in Appendix 'A' and the explanatory note given by the Commissioner in his note placed before the Standing Committee while presenting the Draft Budget Estimates that the collection of the assessed taxes has been taken at 90% of the demand for the City Area and 97% of the demand for the Civil Station Area. In the Civil Station area, collections have been steadily maintained at 97% of the demand. But in

the City Area, the collection of the assessed taxes for the past many years has ranged between 55% and 69.7%. It is ~~likely~~ only last year that 69-7% has been reached. Such being the case, it is difficult to expect that the collections would suddenly rise to the figure of 90% during 51-52. Assuming - that the staff would put forth special efforts to improve the collection, the collections may not reasonably be expected to exceed 80%. ~~collections~~ If the revenue is based on 80% - collections, the position with regard to each of the assessed taxes will be as under for the City Area.

Nature of Tax.	Figures adopted in the Budget at 90% of the Demand.	Figures at 80% of the Demand.	Decrease.
	Rs.	Rs.	Rs.
Building & Land Tax.	6,44,000 ..	5,71,200 .	72,800
Water Tax	. 6,60,956 ..	5,87,303 ..	73,653
Lighting Tax	.. 1,27,177 ..	1,13,854 ..	13,323
Sanitary Cess	.. 2,55,353 - ..	2,26,968 ..	28,385
Total.	..16,87,486 ..	14,99,325 ..	1,88,000(approx).

It is seen from the above, that there will be a decrease of 1,88,000 under Assessed Taxes.

EXPENDITURE

A- General Account, I. Management, 5 Audit Charges.

A sum of Rs.12,000/- has been provided under this head. The direct audit expenditure incurred at present works out to Rs.18,750/-. If the additional hands recommended by the Controller in his re-organisation proposals are sanctioned

sanctioned the charges are likely to increase. The provision now made is not adequate and it requires to be increased to Rs.18,750/- including the cost in respect of two I Division Clerks sanctioned by Government and to be posted.

Plus.
6750/-.

IV Public Health- II Fire Protections.

A sum of Rs.49,500/- is due to the Police Department being 1/3 cost of the recurring and capital expenditure incurred for the maintenance of the Fire Service in the Civil Station. Although the Commissioner had provided for this amount in the draft budget estimates, the Standing Committee has deleted this amount. Government have been requested to relieve the Corporation of this burden on the plea that no such payments are being made by the Madras Corporation. Unless the Government Order that the recovery may be waived, the Corporation cannot divert itself of its responsibility on this account. Hence the provision may be included in the Budget.

Plus
49,500/-.

It is seen that the provision has been omitted even under the Revised Estimates for 1950-51. Due provision has to be made in this behalf also

ABSTRACT OF DECREASES AND INCREASES

Head of Account.	Amount.
